What is it?

At Regent's you can login to almost all of our eresources both on and off campus. Athens, or OpenAthens, is the system we use to help you log in to eresources when you are working off campus.

Access

The first time you use Athens on your computer or mobile device, you will need to select which University you are from, and login.

1. When you see this screen, click **Alternative login**

2. Type **Regent's University London** into the search box, and click **Go**.

3. Select the name of the institution from the results list.
4. Click on the **Go to the Regent’s University London login page** link. Make sure the ‘Remember this organisation on this computer’ box is ticked.

5. Enter your RUL username and password then click **Login**.

6. You will then be taken to the eresource, and you will now be logged in.

**Further information**
